## AMEE MedEdPublish – Referencing Style for Authors

Version 01: July 2018

### General

AMEE MedEdPublish uses a referencing style based on the *Harvard Cite them Right 9<sup>th</sup> Edition*. This is an author-date style. In the References section, the DOIs are also cited, if available. Note that this style requires all authors to be inserted in the bibliography, but, if a reference has more than four authors, then AMEE MedEdPublish allows you to cite only the first four authors, followed by “*et al.*”

### Using a Reference Manager or online automation

If you are using a Reference Manager, then download and install the appropriate AMEE MedEdPublish style:

- Citavi: The AMEE MedEdPublish style has already been added into the Citavi software.
- EndNote: [found here](#)
- Mendeley or Zotero: [found here](#)

To install the style file into the respective Reference Manager, first save the style file to a known location.

#### *Citavi*

- In MS-Word, on the **Citavi** ribbon, click the name of the currently selected Citation style.
- Click **Add citation style**.
- Enter “AMEE MedEdPublish” in the **Name** field.
- Select the desired style and click **Apply**.

#### *Mendeley*

- Close Mendeley, Close MS-Word.
- Copy this style file into the folder where the other Mendeley style files are (on a Windows Machine, it should be in C:\Program Files (x86)\Mendeley Desktop\citationStyles-1.0 on a Mac, it should be Applications\Mendeley\Desktop\Contents\Resources\citationStyle-1.0)
- Open Mendeley, and the style should be listed with your other styles)

#### *Zotero*

- Open MS-Word.
- In MS-Word, From the Zotero Tab, click on **Add Citation**
- It will open a list of styles. Just below the list of styles, click on **Manage Styles**.
- It will open the **Style Manager**.
- Click on the button with the '+' sign - it is a browse button, and you can browse to the .csl file.

### *EndNote*

- Double-Click on the style file, and it will open in EndNote.
- With the Style open, select **File | Save As**.
- Replace the word **copy** with the style's name.
- Click Save.
- Open the EndNote Library, go to select another style, and select the AMEP style from the list.

If you have no reference manager, then you can use free online reference generators, such as: Citation Machine at: <http://www.citationmachine.net/harvard-cite-them-right>

If the online referencing style does not automatically insert the doi, then you will need to insert that manually.

### **Manual Referencing**

If you wish to perform all your referencing manually, the please see this brief set of examples below.

#### ***In-text citing examples***

##### *One author:*

- Format: surname comma date
- Example: This author said this.(Hrastinski, 2009)

##### *Two authors:*

- Format: first-surname and second-surname comma date
- Example: These authors said this.(Moro and McLean, 2017)

##### *Three authors:*

- Format: first-surname comma second-surname and third-surname comma date
- Example: These authors said this.(Anbalagan, Kumar and Bijlani, 2015)

##### *Four and more authors:*

- Format: first-surname *et al.* comma date
- These authors said this.(Baernstein *et al.*, 2007)

## References / Bibliography
